

SCRUB WIPES

FIBRE-REINFORCED CLEANING WIPES FOR HEAVY CLEANING

PRODUCT DESCRIPTION

Fibre-reinforced cleaning wipes for heavy cleaning. Ideal for use during and after the job.

FIELD OF APPLICATION

Cleanse your hands, tools and work surfaces. Effortlessly removes wet and partially dried paint stains, sealants, bitumen, polyurethane, polyurethane foam, adhesives, polyester filler, epoxy, oil, grease, petrol and ink.

PROPERTIES

- Scrub & clean: Use the rough scrub side to loosen the stain and the smooth side to clean up the dirt
- Extra large: 1 wipe is sufficient for cleaning both hands
- Easy to use: Water, soap or white spirit unnecessary
- Clean: Simply throw the tissue with the dirt in the rubbish bin
- Skin-friendly: Lanolin nourishes the skin and prevents dryness and cracking skin

APPLICATION

Directions for use:

Remove the lid of the can and remove the foil. Pull the first wipe from the center of the roll through the orifice. Take the desired quantity of wipes. Close the lid as soon as possible and prevent dehydration. For the best final result clean up stains as soon as possible. Have stains (partially) dried, put the cloth on the stain and leave it so the liquid from the cloth can be soaked up to soften the stain. Then loosen the stain with the scrub side and clean up the dirt with the smooth side.

Advice: If a stain has (partly) dried, cover it with a wipe and allow the moisture in the wipe to soften it. Then scrub with the rough side to detach the stain and wipe off the residue with the smooth side.

Points of attention: Some plastics may tarnish. Test in an invisible spot prior to use. Always close the lid carefully and store at room temperature.

TECHNICAL SPECIFICATIONS

Chemical base:	Impregnated cleaning tissues with scrub fibres
